## ANNOUNCEMENT

### Blood donation action “Heart of Fund”

Today, as much as 20 out of total 800 employees in the Health Insurance Fund of Macedonia joined the blood donation action “Heart of Fund” which is organized in cooperation with the Institute of transfusion medicine.

The blood donation action is carried out throughout the institution and today the employees of the Fund donated blood in Skopje and 30 towns in the country, where the Fund has regional offices.

The Director of HIFM, d-r Saso Stefanoski, informed that the blood donation action continues in all regional offices and reported that around 120 employees volunteered to donate blood in the course of the day at the Fund headquarters and throughout the Republic of Macedonia.

This is the third consecutive blood donation action organized by the Fund and, on government level, we are the institution that coordinates the blood donation actions of all other state institutions. The essence of our institution is to help those who have problems, so today we want—with this personal act—to affirm this in action, so that our employees would save lives with their blood donations, stated Mr. Stefanoski.
