ANNOUNCEMENT

Social Insurance Agreement between Slovakia and Republic of Macedonia, and signing of the Agreement for use of the European Health Insurance Card (EHIC) on the territory of Republic of Macedonia by insureds from Slovakia

On December 1st, 2015, the Social Insurance Agreement between Slovakia and Republic of Macedonia entered into force, and pursuant thereof insureds from one contracting state, during temporary or permanent stay on the territory of the other contracting state, may use free health services.

The Health Insurance Fund of Macedonia entered into an Agreement for use of the European Health Insurance Card (EHIC) on the territory of Republic of Macedonia by insured persons from Slovakia, which will be begin apply as of its entry into force.

On the basis of the European Health Insurance Card, insureds from Slovakia will be able to use health services in emergency and necessary cases, directly in all healthcare institutions that have entered into contract with the Health Insurance Fund of Macedonia. Macedonian citizens traveling to or staying in Slovakia will be able to use health services in urgent and necessary cases on the basis of the bilingual form .

The European Health Insurance Card (EHIC) was introduced in the European Union in June 2004, as document replacing the existing form for temporary residence E111. The goal of this Pan-European initiative is to strengthen mobility of the population within the EU, and in the non member states, by signing separate agreements with said states.

The Health Insurance Fund of Macedonia has entered into Agreement for use of the European Health Insurance Card (EHIC) in the Republic of Macedonia with Slovenia, the Czech Republic, Federal Republic of Germany, Republic of Bulgaria, the Grand Duchy of Luxembourg, the Kingdom of Belgium, the Kingdom of the Netherlands, and Republic of Austria.

By signing the Agreement for the use of the European Health Insurance Card (EHIC) with the Slovak Republic, the Health Insurance Fund of Macedonia has signed a total of 9 such agreements with European Union member states.

The successful and consistent implementation of the agreements for use of the European Health Insurance Card (EHIC) in the Republic of Macedonia, is a strong argument for the joining of Republic of Macedonia to the big European family, where it belongs.
